VUONG ANH VU

Technical Business Analyst | Full-Stack JavaScript Developer

393 Pham Van Dong Street, Binh Son, Quang Ngai, Vietnam | (+84) 090-535-0006 | anhvuvuongbs@gmail.com

GitHub | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Technical Business Analyst with 10+ years of experience gathering requirements, mapping business processes, and translating operational needs into structured, actionable specifications within a safety-critical industrial environment. Manages a CMMS (IBM Maximo) to plan and prioritize cross-team work, and produces reporting and dashboards using SQL and Power BI. Complements this analyst background with hands-on software development skills (JavaScript, React, Node.js/Express, SQL) gained through The Odin Project's Full Stack curriculum, enabling direct, low-friction communication with engineering teams and the ability to prototype and validate solutions independently. Fluent in English (IELTS Academic 8.0) with strong technical writing and stakeholder communication skills built through years of stakeholder-facing engineering, analyst, and teaching roles.

CORE COMPETENCIES

- Business Analysis: requirements gathering & documentation, process mapping, stakeholder communication, technical specifications, workflow/systems design
- Data & Reporting: SQL, Power BI, data analysis & visualization, technical documentation
- Development: JavaScript (ES6+), React, Node.js, Express, RESTful API design, HTML5/CSS3, Git/GitHub
- Tools & Practices: IBM Maximo (CMMS), agile/iterative development, npm, testing fundamentals, MVC architecture
- Other Languages: Python, Java, C/C++
- Soft Skills: cross-functional coordination, problem-solving under pressure, technical-to-non-technical translation

WORK EXPERIENCE

Maintenance Planner | *Binh Son Refinery, Quang Ngai, Vietnam* Sep 2019 – Present

- Gathered and documented operational requirements from cross-functional stakeholders, translating them into structured, actionable work plans and specifications.
- Owned planning and prioritization workflows in IBM Maximo (CMMS), applying systems-thinking and process-mapping to coordinate work across multiple teams.
- Authored and maintained technical documentation and work instructions, ensuring accuracy, traceability, and compliance across the maintenance process.

Automation Control Systems Engineer | *Binh Son Refinery, Quang Ngai, Vietnam* Jun 2014 – Sep 2019

- Configured and maintained DCS, PLC, and SCADA systems, building strong logic, debugging, and root-cause troubleshooting skills directly transferable to software requirements analysis.
- Managed safety-critical automated control systems across 42 buildings and 2 tank farms with zero lost-time incidents, reflecting rigor and reliability in mission-critical system design.
- Reviewed and corrected technical and English-language documentation, sharpening precision in technical specification writing.

English Teacher | *AMA Quang Ngai & Self-employed* Mar 2015 – Present

- Taught IELTS, TOEIC, and Business English, developing strong skills in explaining technical concepts clearly to non-technical audiences.

Sales Engineer / Software Developer | *Esaco Group / BTM Global, Ho Chi Minh City* Jan 2012 – Jun 2014

- Developed an Oracle Retail POS software solution during probation, recognized for outstanding performance — early hands-on requirements-to-delivery experience.
- Served as technical liaison between clients and Rockwell Automation product teams, bridging business needs and technical implementation.

SELECTED TECHNICAL PROJECTS

- IELTS Speaking Practice — Live AI-powered web app for IELTS speaking practice (React, Node.js/Express, Claude API, Web Speech API). Students answer by voice; the app cleans up the transcript, gives a rough band score with feedback per IELTS criterion, and generates a model answer with text-to-speech. Designed from my own experience teaching IELTS. ielts-speaking-app.onrender.com
- Odin-Book — Full-stack social app with authentication (Node.js, Express, database). github.com/VAVVN/odin-book
- CV Application — Interactive resume builder built with React. github.com/VAVVN/CV-Application
- Admin Dashboard — Responsive admin dashboard layout (HTML/CSS). github.com/VAVVN/Admin-Dashboard

EDUCATION & TRAINING

- Full Stack JavaScript Path — The Odin Project (completed): HTML/CSS, JavaScript, React, Node.js/Express, databases.
- MicroMaster in Solar Engineering (Verified Certificate) — Delft University of Technology, Aug 2022 – Present
- Bachelor of Engineering, Electronic & Communication (Advanced Program) — Da Nang University of Technology, 2006–2011. Graduated Good ranking (Top 10% of faculty). Thesis: Building a Noise-Cancelling System by Means of Adaptive Algorithms.
- Certificate: Equipment and Automation Control System in Refinery — Petrovietnam Manpower Training College, Jun 2014 – Nov 2014

LANGUAGES

- English: Fluent — IELTS Academic 8.0
- Vietnamese: Native
